

PROPOSAL FOR CUSTOM HUB MANAGEMENT SOFTWARE

JS SOLUTIONSHUB

JS SOLUTIONSHUB TEAM

JS SOLUTIONSHUB Sunyani Bono Ahafo (jssolutionshub.com)

Subject: Project Confirmation & Full System Development Agreement

Dear Sir,

Thank you for the constructive discussions and clarifications regarding the Hub Management System. Following our engagements, we are pleased to confirm that **JS Solutions Hub has agreed to proceed with the development of the complete system as discussed**, within the agreed project cost.

Project Scope Confirmation

The system will be developed as a **comprehensive internal management platform** to support your organization's daily operations. The solution will cover all agreed functional areas, including:

- Patient admission and discharge management
- Inventory management (Pharmacy, Kitchen, and General supplies)
- Financial tracking (cash, bank, and mobile money entries with automated inflow and outflow calculations)
- Individual account records and summaries
- Staff access and role-based permissions
- Management dashboard and operational reports
- Website development (Addition to the project)
- Visitors
- Staff Info
- Vendors Info

- Admissions

The system will be delivered as a **dashboard-based application**, designed for internal use, with a focus on reliability, clarity, and ease of use.

Technology & Cost Efficiency

The platform will be built using **modern web technologies**, including **Next.js**, which allows us to deliver a secure, scalable, and high-performance system while maintaining cost efficiency. This approach reduces infrastructure complexity and ensures the system can be easily maintained and extended in the future.

Project Cost

- **Total Agreed Project Cost: GHS 20,000**

This amount covers system design, development, testing, deployment, and initial handover.

Payment Plan

To ensure smooth execution of the project, the following payment structure will apply:

- 25% upfront (GHS 5,000) – to commence development and set up all necessary project infrastructure.
- 37.5% mid-project (GHS 7,500) – upon completion of core modules.
- 37.5% on final delivery (GHS 7,500) – prior to deployment and handover.

Project work will begin upon receipt of the initial payment.

Project Timeline

- Estimated development period: **2–3 months**
- Deployment and basic user orientation will follow immediately after completion.

Maintenance & Future Support

Post-deployment maintenance and support can be provided under a separate agreement to ensure system stability, security updates, and minor enhancements as required.

Next Steps

1. Confirm acceptance of this agreement
2. Complete the initial payment
3. Schedule project kick-off and requirement finalization

We appreciate the opportunity to work with your organization and are committed to delivering a system that meets your operational needs effectively.

Kind regards,

JS Solutions Hub
